## Champion Strong For Baseball

The meeting called for Monday night in G. L. Dupue's office to discuss a baseball team for this season was decidedly the most enthusiastic gatherings held here for years. Not only was there a good turnout but the individuals involved were ready to take an active hand in any necessary work to make the game a success from every point of view this year.

The following officers were elected: Manager, J. M. Moffatt; assistant manager, W. E. Bonar; Sec. Treas. W. H. Hamilton; finance committee, G. M. Campbell and Irv. Fisher; grounds committee, G. L. Dupue and F. M. Watts.

Three old-timers of ball fame here will be included in this year's line-up, viz: Charlie Starr, E. Siler and R. Knox, and other material in sight is both plentiful and good, indicating that Champion will have the best team for some years.

A meeting to discuss league prospects called for Wednesday night at Valcan was adjourned owing to the fact that bad roads made it impossible for some of the delegates to attend. Prospects for an unusually strong aggregation of teams are said to be bright.

## Biggest Road Unit In Alberta

The 80 h.p. Cleatrac, recently purchased by the Municipal District of Harmony, was unloaded this week and has been the centre of attraction since that time. The new engine is the largest road unit so far in the province and is entirely modern in construction, carrying most of the conveniences of the best automobiles in enclosed construction, automatic oiling and other features. While weather conditions have prevented an actual road test all are satisfied the new tractor will prove fully up to its recommendations. H. McNaughton will operate the Cleatrac for the municipality.

1.20 A.M. Train

Now Carries Mail

A short time ago a petition was circulated asking the post office officials to increase the mail service by carrying mail on the one-twenty A. M. train. It is gratifying to learn that the petition has not been ignored and that an additional mail will be delivered on the night south bound train, commencing on the 1st of May.

## OBITUARY

The death occurred of Mrs. Thiesmeyer at the home of her sister, Mrs. H. McNaughton, on Monday, April 21st, after a long illness. The deceased was born in the city of Minden in 1860, emigrating to St. Louis, Missouri, in 1881, where she was married to Mr. Louis Thiesmeyer in 1886. In 1891 she moved with her husband to Washington where they homesteaded near Elk and lived there until in 1907 when they moved to Alberta, homesteading at Armadale. She was one of the first women pioneers in that community where she will be missed by everyone as she always took an active part in and worked hard for the public welfare. She is survived by her husband at Armadale, one sister, Mrs. H. McNaughton, and a brother, Mr. William Muehle, of Vancouver, B. C.

### Card of Thanks

Mrs. A. McNaughton, Mrs. Louise Haight and Mr. L. Thiesmeyer wish to thank their many friends who so kindly offered and came to their assistance through the illness of their sister, mother and wife, the late Mrs. Emma Thiesmeyer, and for the beautiful floral tributes and expressions of sympathy received, especially mentioning, the Crané family, Mr. Gerald Groves, Mr. R. Howell, Mr. T. Carlson and Armada friends.

### Card of Thanks

Mrs. Albert Harris and family wish to thank Champion friends for expressions of sympathy in their recent bereavement, and also Mr. and Mrs. J. M. Moffatt, Mr. and Mrs. W. A. McIntyre, Mr. and Mrs. W. A. Coe and the B.P.O. Elks for tributes of flowers.

Such statistics of consumption as have been given are evidence of an exceptionally high standard of living in Canada. While it is true that some of these estimates of per capita consumption have been inflated by tourist consumption, there is no question but that the requirements of the Canadian population are likely to continue to increase. Imports of meats, dairy products and wool have been growing, and exports of bacon and other commodities have been falling off in the face of this increasing home demand. Canadian requirements for animal products are distinctly favorable to greater diversification in Canadian agriculture. —Royal Bank Letter.

First half holiday, Wednesday, May 7th.

## NOTES AND COMMENT.

The total absence of interest on the part of ratepayers in municipal and school affairs seems to have reached very close to the limit. The Municipal District of Harmony is unable to secure a councillor in one division and difficulties have been experienced in securing trustees for some of the school districts. Annual meetings of ratepayers have been left to so few for many years that such a situation is not hard to understand. When councillors and trustees are elected by half a dozen individuals and difficulty is experienced in securing men to fill the positions it naturally follows that those elected will gradually shun their responsibility to as great an extent as possible, simply because they feel they are practically forced into it. Incidentally the management or mismanagement of municipal and school affairs is more important to the individual than is the complexion of Dominion or Provincial governments, not because these bodies handle more money than the legislative bodies but because good administration in either case leaves the management of local affairs the most important in almost every way. Everybody will admit there is room for improvement all round, but this applies with special force with reference to the administration of municipalities and school districts.

A writer in the Country Gentleman who has investigated the wheat growing situation in Russia does not think

there is a great deal of danger to the farmers of the western hemisphere in the situation. The government farms vary in size from 3,000 to 300,000 acres and are inefficiently handled in every way. Thousands of tractors have been ruined by inexperienced and indifferent operators and the country being farmed has a very uncertain rainfall. According to this authority Russia will export but little more wheat in the near future.

## First Fortnightly Crop Report

Telegraphic reports received by the Department of Agriculture indicate that in the southern part of the province from 40 to 75 per cent. of wheat is sown. Over all of the southern area moisture is sufficient for germination and over a large part is abundant. In the central sections of the province, reports indicate seeding of wheat to be from 35 to 75 per cent. completed with sufficient moisture for germination but no reserve. Most of this area has received some moisture during the month of April and on April 24 and 25, snow and rain fell over a large area of the eastern part of the province.

In the Peace River district, heavy rains north and south of

In distributing your Dollars, please don't forget The Chronicle.

the Peace on April 24, have delayed seeding for several days. Very little grain has been sown north of the Peace while to the south more than half of the area has been seeded. It is estimated that there is an increased crop area in this district of 25 per cent. and that moisture conditions are the best in twenty years.

There is not likely to be much decrease in the acreage sown to wheat throughout the province. There will be, however, an increase in the acreage of coarse grains making a

## PROVINCE OF ALBERTA NOTICE

## Major Developments In Canada's Air Mail Service Attracting Great Attention

Canada, with her vast area and widely scattered population, is advantageously situated to derive the greatest benefits from the development of internal air mail service. The great distances which separate the principal urban centres and the steady and broad-fronted advance in settlement and development serve to render postal communication by air peculiarly valuable in the Dominion. In addition, the Post Office Department of Canada has entered into a reciprocal arrangement with the United States postal authorities whereby Canada may take full advantage of the extensive United States air mail services connecting with points in Mexico, the West Indies, and Central and South America.

The establishment of Canada's official air post service is comparatively recent date, but the conveyance of mail matter by air within Canada has been an actual fact for over ten years. In the early days of mail transportation by air, the Post Office Department, as a temporary measure, gave permission to the operating aviation companies to carry letters, entirely at the sender's risk and subject to a small fee ranging from five cents to twenty-five cents per letter, in addition to the regular postage. This fee was reduced by the operation of numerous "sticker" services demonstrated beyond question the essential practicability of air mail transport in the Dominion, for these services were conducted in many cases under considerable operating difficulties although not on hard-and-fast schedules.

Civil aviation in Canada assumed proportions in 1922, justified by the Post Office Department in utilizing the facilities available for the fast transport of mails, not only to remote areas but between the larger centres of population. Services of the latter type had of course to be arranged on definite schedules, and this involved a much greater problem. As a beginning a service was inaugurated by which incoming British mails were taken from the Atlantic steamers and transported by air to Montreal, thus considerably lessening the delivery lag. Later, on October 1, 1923, a service of daily frequency was established between Montreal and Toronto, and on the same day an international air mail route was opened between Montreal, P.Q., and Albany, N.Y. On July 15, 1929, the Montreal-Toronto route was extended to Detroit, via Hamilton, London, and Windsor, Ontario, and thus a point of contact with the United States air mail routes westward was established, in addition to providing the most densely populated portion of Ontario with speedy air mail service. On the same date it still further connection with southern air mail routes was provided by the establishment of daily service between Toronto and Buffalo. Notwithstanding the difficulties of operation in the Maritime Provinces, the inauguration of suitable landing fields, densely wooded areas, broken country, and fog—by the Postmaster-General inaugurated a service early in December, 1929, between Montreal, Quebec, Moncton, and Saint John.

The next major development in Canadian Air Mail Service was the inauguration of the trans-prairie route on March 5, 1930. Planes are now operating daily between Winnipeg, Regina, Moose Jaw, Medicine Hat, and Calgary, and between Regina, Saskatoon, North Battleford, and Edmonton on a schedule which clips a full twenty-four hours off the transcontinental movement of Canadian mails. This not only creates a marked advance towards the coast-to-coast service which is being developed link by link, but revolutionizes intercommunication between the provinces of Alberta, Saskatchewan, and Manitoba.

It is in the outlying portions of the

"What had fate. One does not wear low trousers with a morning coat."—Hummel, Hamburg.

W. N. U. 1833

## Still In Experimental Stage

Difficulties Have Cropped Up In Connection With Battery Brooders

A recent report of the Dominion Experimental Farm would indicate that another much heralded innovation in the poultry industry is not destined to any great success. During the past two or three years, the battery system of brooding chickens has gained some prominence in Canada, the principle being that of raising chickens in a uniform and correctly heated room in metal batteries. These batteries are simply crates placed one on top of the other with a wire floor and equipped with trough for water and feed. Beneath the wire floor are papers to catch the droppings and which are easily removed and burned.

The advantages of such a system are quite obvious, it is really a factory of mass production of chickens. One man can look after a large number of the babies and the wire floors make for complete sanitation. Temperature and fire risks are eliminated, spread of disease is minimized, and the feed and water troughs, which are placed outside the wire walls of the compartment, are easily kept clean.

But some difficulties have cropped up and it would seem from the report that they are serious ones. In the first place, a temperature that suits day-old chicks is too high for the older broilers. Some considerable trouble has developed from chicks getting caught in the wire floors as might be supposed, and last, but not least, it was found that from four to six weeks the chicks that are handled in this manner. Cannibalism and nervousness then develop in the chicks, and the mortality becomes high.

The report concludes that the battery system is still in the experimental stage and that at present will find its greatest use under hatchery conditions for the short time holding of chicks.

## Willing To Take Chance

Norman Derham, who swam the English Channel in 1926, has written to Knute Johnsson, a young Scandinavian, who proposes to cross the Atlantic in a speed boat, offering him his services as a companion. For Knute Johnsson has been advertising.

Vila—An empty champagne bottle weighs so fatigues.  
Mill—What do you mean?  
Vila—It's lost its pop.

It costs from \$1,000 to \$2,000 per mile to sand a road.

## Mature Corn For Silage

Superiority Over Immature Corn Proved By Tests

The superiority of silage from mature over immature corn is clearly demonstrated by tests conducted at the Dominion Experimental Farm at Brandon, Manitoba. In a series of tests in which a group of six cows were fed alternately mature and immature corn silage, a marked increase in the volume of milk produced, and in respect to gain in body weight, showed by the group fed mature corn silage. The following feed values shown by laboratory tests are: for mature corn 90.1 per cent moisture content, 2.77 per cent protein, 61 per cent fat, 16.63 carbohydrates, 9.27 fibre, and 1.62 per cent ash; for immature corn the moisture content was 82.6 per cent, protein 1.71 per cent, fat .91 per cent, carbohydrates 17.4, fibre 5.45, and ash 1.50 per cent.

## Must Use Percentage

Of Domestic Flour

Legislation Is In Force In Five European Countries

State legislation requiring millers to use a certain percentage of domestic flour in making of bread is in force in Germany, France, Spain, Switzerland and Portugal, states Hon. G. M. Gillett, president of the overseas trade department, in a written answer to a question in connection with the proposal that the British loaf should contain a statutory proportion of British-grown wheat flour.

The minimum in France is as high as 97 per cent it is declared. In Spain the minimum is 50 per cent. No percentage is fixed in Switzerland and Portugal, but millers in those countries must take delivery of a certain quantity of native wheat.

## Under Soviet Rule

It's not all "cakes and ale" in Soviet Russia, according to Zachary Braumbeek, who has just received a pathetic letter from his brother in Oskru, Siberia. The brother wrote that the government had appropriated his wheat, hog, bedding and furniture, leaving only 20 baubles of worth for his family's use.

## A TITLED FLIER

Her Grace the 64-year-old Duchess of Bedford, who took off from London, on a flight to Capetown, South Africa. With the duchess are two pilots and she plans to take her turn at the controls.

## Colorado Interested In

World Grain Exhibition

Farmers of Peetz District Plan To Enter Exhibit

According to the Peetz Gazette, a weekly newspaper published in the town of Peetz, Colorado, the farmers of that district are determined to demonstrate their ability to grow the best quality grain, state S. J. Latta, publicity agent for the World Grain Exhibition and Conference, to be held in Regina in 1932. They are already preparing to be represented in a number of selected classes at the World's Grain show in 1932.

In an interesting article on this great undertaking The Gazette says: "Tentative plans are now being considered for the entrance of Peetz grown wheat, rye, barley, sweet clover and hog millet seed and beans in the competition for the thousands of dollars in prizes offered at the World's Grain Exhibition and Conference, to be held at Regina, Saskatchewan, Canada, July 25 to August 6, 1932."

"People of Peetz feel they can favorably compete in this big show and the local Community Fair Association has already commenced to plan the details of gathering samples which will be displayed against all world comers."

In 25 years—from 1600 to 1925—the rinder population of Alaska increased from 3,000 to 400,000.

Nearly 4,000 Christmas puddings were shipped from England to the United States last year.

## FIRST AID SCHOOL ON WHEELS

With a view to extending adequate First Aid instruction to its employees in the outlying sections of the system, one of the three new First Aid cars which have just been completed for the Canadian National Railway has been placed in the Western Region for service.

Fully equipped and in charge of a competent instructor, the car will travel to outlying points, bringing courses of instruction to engine men and train men, and construction and maintenance of way men who have ordinarily no means of obtaining this knowledge. While their primary use is for instruction, they are, as well, travelling stations ready to be used in emergency, and are the first cars of this type to go into service on a railroad in Canada.

## Canadian National Parks, With Wonderful Scenic Beauty, Form a Great National Asset

The coming season promises to be one of great tourist activity no far as the national parks of Canada are concerned. Officials, both of the Department of the Interior and of the railways, report an unusually large number of requests for information and advance bookings. Large numbers of inquiries have also been received in the department from motorists in practically every section of Canada and the United States, and even from Mexico. The majority of these ask for the shortest routing to Canada's national parks, a description of the different attractions, the accommodations and particularly the facilities for camping.

A comparative analysis of the various applications shows that by all odds the strongest appeal of the parks is their scenic beauty and wilderness quality. An extract from one expresses the demand of many: "I want to visit the parks containing the prettiest mountain scenery, as I want to camp out in the wilderness and go mountain climbing."

Some of the writers reveal that the writers know almost nothing of Canadian geography. They have heard a rumour of the greatness of the national parks of Canada and they write to ask where they are and how they can get to them. Apparently they have not been accepted in the minds of the travelling public the content over that national parks represent the finest examples of magnificent power, and beauty in nature.

(By Edw. A. Tinsley)

## Winnipeg Newspaper Union

The Winnipeg Newspaper Union is a national park in every province, has met with such wide approval. The more far-sighted of our people realize that the changes which will probably come about in Canada during the next hundred years will be the result of the present conditions in many parts still undisturbed.

Visitors to the national parks last year reached over half a million people but this figure, large as it is, is only in its infancy. The creation of new parks such as the Riding Mountain park recently set aside in Manitoba, the extension and improvements of federal and provincial moose highways and many other measures will provide new stimuli for travel and, incidentally, bring in new wealth to the Dominion. Expenditure of visitors to the parks range from a few dollars a day to as high as \$100 per day. One visitor to the Canadian West last year revealed that in addition to hotel and transportation expenses his party of four had spent \$6,000 during a three weeks visit, most of it with retail stores. Every new park created becomes an addition to our capital stock and increases our power of attracting the world to help to swell the prosperity of the railway and steamship companies, hotels, lodging houses, retail and wholesale merchants, and in fact spreads out as to effect every trade and industry.

The same national park has come to stand for such a high degree of excellence that once a park is set aside as a park, travel tends to flow to it in ever-increasing volume. Both in the returns they can give in health and happiness and in actual economic results the national parks must become an increasing national asset.

## New Method For Making Shoes

Factory methods used in mass production of automobiles are being introduced into leading shoe factory of Erfurt, Germany. The footwear is fabricated as it is transported on trays through the factory. The inventor claims the method will reduce costs and increase production.

## Beautiful Afternoon Wear

All Tinsley models are created and sketched in Paris and the patterns are made in New York.

Even though chill winds and cold may be still with us, spring is not far away and the shops are stocking up with lovely new materials. All this creates a keen incentive to thinking of new clothes and making them.

Today's model is very slimming with its V's and tiny front clip, is made to cut for the normal and heavy figure. It can be belted at the natural waistline, just above, or so many women prefer. A bow finishes the slender neckline, and others are attached to the wrists.

Marceline, crepe de chine, satin, mull, madras, and georgette are lovely tissues for the model.

Wavy promsies to be a popular spring color, but light blue, green, violet, red greys, and beige are good.

This pattern may be obtained in sizes 20 and 24 to 40. It is ready for immediate delivery. It is hand made.

Pattern price 25 cents. Be sure to fill in size of pattern. Address: Pattern Department.

scenery, in a setting of unspoiled primitive conditions, and their name is now sufficient guarantee of their attractiveness.

Visitors to the national parks come with varied needs, some seeking health, others mere recreation, but the majority are inspired by the desire for rest and freedom. Whether they realize it or not they are usually seeking a way of escape from the increasing complexity and routine of our highly mechanized competitive life into a world of peace, solitude, and inspiring beauty. In the face of the majestic grandeur of the Rockies, the enchanting loveliness of such places as Lake Louise, the Yoho Valley, Moose Lake or Mount Robson, a man is lifted out of a pre-occupation with his purely personal problems into a kind of deeper satisfaction and healing of mind, passing, as has been said, "through wonder into joy."

This, in the final analysis, is perhaps the strongest appeal of the national parks. They supply something more than the rest and relaxation of a hunger almost apparently in every human being and which must become more deeply felt as population increases and conditions of life in this continent grow more artificial and restricted. Already, the world would seem to be reaching a point where the present mechanized development may sweep original conditions everywhere away. That is, perhaps, one reason why the recent announcement of Hon. Charles Stewart, Minister of the Interior, that he hoped the time would soon come when there would be a national park in every province, has met with such wide approval. The more far-sighted of our people realize that the changes which will probably come about in Canada during the next hundred years will be the result of the present conditions in many parts still undisturbed.

Visitors to the national parks last year reached over half a million people but this figure, large as it is, is only in its infancy. The creation of new parks such as the Riding Mountain park recently set aside in Manitoba, the extension and improvements of federal and provincial moose highways and many other measures will provide new stimuli for travel and, incidentally, bring in new wealth to the Dominion. The same national park has come to stand for such a high degree of excellence that once a park is set aside as a park, travel tends to flow to it in ever-increasing volume. Both in the returns they can give in health and happiness and in actual economic results the national parks must become an increasing national asset.

## Beautiful Afternoon Wear

All Tinsley models are created and sketched in Paris and the patterns are made in New York.

Even though chill winds and cold may be still with us, spring is not far away and the shops are stocking up with lovely new materials. All this creates a keen incentive to thinking of new clothes and making them.

Today's model is very slimming with its V's and tiny front clip, is made to cut for the normal and heavy figure. It can be belted at the natural waistline, just above, or so many women prefer. A bow finishes the slender neckline, and others are attached to the wrists.

Marceline, crepe de chine, satin, mull, madras, and georgette are lovely tissues for the model.

Wavy promsies to be a popular spring color, but light blue, green, violet, red greys, and beige are good.

This pattern may be obtained in sizes 20 and 24 to 40. It is ready for immediate delivery. It is hand made.

Pattern price 25 cents. Be sure to fill in size of pattern. Address: Pattern Department.

scenery, in a setting of unspoiled primitive conditions, and their name is now sufficient guarantee of their attractiveness.

Visitors to the national parks come with varied needs, some seeking health, others mere recreation, but the majority are inspired by the desire for rest and freedom. Whether they realize it or not they are usually seeking a way of escape from the increasing complexity and routine of our highly mechanized competitive life into a world of peace, solitude, and inspiring beauty. In the face of the majestic grandeur of the Rockies, the enchanting loveliness of such places as Lake Louise, the Yoho Valley, Moose Lake or Mount Robson, a man is lifted out of a pre-occupation with his purely personal problems into a kind of deeper satisfaction and healing of mind, passing, as has been said, "through wonder into joy."

This, in the final analysis, is perhaps the strongest appeal of the national parks. They supply something more than the rest and relaxation of a hunger almost apparently in every human being and which must become more deeply felt as population increases and conditions of life in this continent grow more artificial and restricted. Already, the world would seem to be reaching a point where the present mechanized development may sweep original conditions everywhere away. That is, perhaps, one reason why the recent announcement of Hon. Charles Stewart, Minister of the Interior, that he hoped the time would soon come when there would be a national park in every province, has met with such wide approval. The more far-sighted of our people realize that the changes which will probably come about in Canada during the next hundred years will be the result of the present conditions in many parts still undisturbed.

Visitors to the national parks last year reached over half a million people but this figure, large as it is, is only in its infancy. The creation of new parks such as the Riding Mountain park recently set aside in Manitoba, the extension and improvements of federal and provincial moose highways and many other measures will provide new stimuli for travel and, incidentally, bring in new wealth to the Dominion. Expenditure of visitors to the parks range from a few dollars a day to as high as \$100 per day. One visitor to the Canadian West last year revealed that in addition to hotel and transportation expenses his party of four had spent \$6,000 during a three weeks visit, most of it with retail stores. Every new park created becomes an addition to our capital stock and increases our power of attracting the world to help to swell the prosperity of the railway and steamship companies, hotels, lodging houses, retail and wholesale merchants, and in fact spreads out as to effect every trade and industry.

The same national park has come to stand for such a high degree of excellence that once a park is set aside as a park, travel tends to flow to it in ever-increasing volume. Both in the returns they can give in health and happiness and in actual economic results the national parks must become an increasing national asset.

## No other Orange Pekoe can equal this in flavour

### Cause For National Gratification

Profound satisfaction will be felt by the people of Western Canada, in common with the rest of the world, in the successful outcome of the Five Power naval conference in London, England. That satisfaction is all the greater, and the feeling of relief more pronounced, because of the many predictions freely made during the progress of the conference that its results would be nil, and quite abortive in the realization of the hopes in which it was conceived.

Because there were many conflicting viewpoints to be reconciled, many difficulties to be overcome, and the conference ran on month after month, the pessimists told an anxiously awaiting world "that nothing would be accomplished because nothing could be done, that the nations were still so suspicious of each other that they were afraid to disarm in even the slightest degree; that the old game was still being played with each nation trying to get some advantage at the expense of others."

But, with the signing of the agreement by the three greatest naval powers, and acceptance of a portion of the agreement by the next two naval powers, the dire prophecies of the pessimists have been proven foundationless. Instead, the splendid optimism of the unflinching patients and courage of Ramsay MacDonald have triumphed, and a great forward step taken along the road to permanent world peace.

After a world war lasting more than four years, why should people have become discouraged and foreseen failure because a period of three months was required in discussion of the many knotty problems confronting the naval conference before a solution was found?

The British Commonwealth of Nations, the United States of America, and the Empire of Japan have found themselves where they undertake to reduce their naval armament and expenditures and voluntarily impose restrictions on themselves. The British Empire has shown that its power is limited. And who, a few short years ago would have imagined it possible, all five powers agree that information will be given to each by all the others "of vessels it is building" in replacement of obsolete, abandoned and destroyed ships. This is not preparation for war, but for the maintenance of peace.

But the great achievement of the conference is not to be found so much in the actual reduction of armaments, but in the fact that the policy of friendly co-operation between nations has been given an impetus which will undoubtedly grow. This more than anything else must fill the world with hope for the future.

The conference has also established beyond all possibility of dispute that "matter how far the leaders of a nation may be prepared to go in the matter of disarmament, they can only proceed as far as public opinion at home will support them in going. The belief is general that the conference would have gone to even greater lengths in disarmament had the various representatives there felt assured of support at home, and that their very willingness to make concessions would not be used to overthrow the whole project when referred for final ratification by their national assemblies."

The great lesson of the conference for all peace-loving people is, therefore, the vital necessity of an awakened and informed public opinion in every land on the awful subject of war and preparation for war, rather than preparation for peace. Once again has it been demonstrated by this naval conference that Government can move very far in advance of public opinion, no matter how laudable may be the motives by which it is inspired or preposterously the object sought to be attained.

It is the rank and file of the people who must become peace-minded. It is the masses who must be informed and taught to shed their suspicions and animosities. The more ardent advocates of peace the peoples of all nations become, the more quickly will their recognized leaders and responsible statesmen write those wishes into solemn agreements and binding treaties.

Canadians, perhaps more than any other people in the world, have cause for thankfulness and joy in the reaching of a naval armament volume between the British Commonwealth, the United States and Japan. We are part and parcel of the British Commonwealth, while our nearest neighbors are the United States and Japan. With the former we have much in common, while with the latter by reason of our geographical position we must have ever increasing intercourse. Furthermore, any misunderstanding between the United States and Japan could hardly fail to react with injury to us. That all are in accord is cause for deep gratification in Canada.

### Should Finish Studies In Canadian University

British Students Who Settle Here Would Find It Helpful

British students who wish to settle in Canada should complete their studies in Canadian universities. This is the conclusion arrived at by Dr. Cyril Norwood, headmaster of Harrow, and chief of the party of headmasters of British public schools who are now touring Canada.

Dr. Norwood has based his conclusions on a study of the Canadian universities the party visited in Quebec and the Maritimes. He hoped the future would see more Canadian students at Oxford, Cambridge and London, but felt the most important requisite for success in Canada was training in a Canadian university. There was a movement on foot, he said, to make the University of London the research centre of the empire.

Incidentally, the foreign trade is increasing.

### Headache

Let Minard's drive it away. Bathe the forehead. Also inhale liniment, and resting.

### Discovery Of Danish Farmers

Sale Of Milk By The Post Is A Possibility

Milk will shortly be on sale by the foot, following important experiments at a Danish farm.

It has been found that when the natural water is withdrawn from cows' milk the remaining pulpy substance can be rolled into sheets similar in appearance to paper.

Special machines have been made to carry out this rolling process on many long lines, and the milk is usually very concentrated that it is a food in itself.

When required in liquid form it is simply dissolved in boiling water and its strength gauged by the amount of water added.

### OWES HER HEALTH TO PINK PILLS

This Weak Anæmic Woman Now Rejoices In Health and Strength

It is a scientific fact that nearly all the ills that afflict women are due to poor blood. Blood poverty, or anæmia is the one cause of low vitality, nervousness, loss of appetite, breathlessness and achiness. It is the cause of all the troubles that women suffer from so many women. But suffering women could banish all their troubles by taking Dr. Williams' Pink Pills, for it is a known fact that these pills create an abundance of new rich blood—their wonderful power.

That Professor of these statements is given by Mrs. L. Deschenes, Le Pique, Que. "I began using Dr. Williams' Pink Pills when I was suffering from anæmia. It appeared to be all right, but I had frequent headaches, and the least exertion would leave me breathless and worn out. My husband advised me to try Dr. Williams' Pink Pills and got for me a box. Almost from the first I noticed an improvement in my condition, and as I continued to take the pills my blood became better and I steadily grew stronger. I am now enjoying the best of health. I am now able to do all my housework and I have no more headaches. My appetite is better and I sleep more soundly at night. I will continue to take Dr. Williams' Pink Pills and I unhesitatingly recommend them to all who are troubled in health."

You can get Dr. Williams' Pink Pills at any drug store, or they may be sent by mail at 50 cents a box by sending to Dr. Williams' Medicine Co., Brockville, Ont.

### Canada Has Exclusive Method

Quality Of Canned Goods Must Be Marked On Label

Canada is the only country in the world so far to require the quality of canned goods to be clearly marked on the label so that the housewife can buy with the assurance that she is getting what she wants. Under the provisions of the Meat and Canned Foods Act, administered by the Fruit Branch of the Dominion Department of Agriculture, there are four quality grades: "Superior," "Standard," and "Second." "Always buy by the quality mark" is a slogan can now be applied to home buying with a real value.

Persian Balm is unrivaled for promoting feminine loveliness. Tones and rejuvenates the skin. Makes it exquisitely soft-textured. Makes flawless white. Especially recommended to smooth and relieve roughness or chafing caused by weather conditions. Indispensable to every dainty woman. Cool and refreshing. Delicately fragrant. Magical in results. Never leaves a vestige of stickiness. Persian Balm is the one toilet requisite for the woman who cares for charm and elegance.

### Canada's Forest Area

The total forest area of Canada is estimated to be 1,151,454 square miles. Of this area, 865,880 square miles are productive and accessible; a little over one third of this area bears timber of merchantable size; the remainder carries young growth not yet fit for use.

A railroad in Japan provides third class sleeping cars for its poorer patrons.

Phone Was Especially Built For Country

Built especially for the photographing of an area of 63,000 square miles in Northern Rhodesia, an airplane is soon to be put into commission. The machine is literally an aerial photographic studio. It can be flown at a height of 20,000 feet and remains at this altitude for seven and one-half hours, while the pilot and photographer map the country below. As most of the flights will be over a wild country the plane has two engines so that if one fails the other will carry the machine to safety.

German scientists have succeeded in obtaining electric current from storm clouds in a series of mountain and controlling the sparks produced.

Seventy pieces of wood go into the making of a violin.

### Do Your Ears Buzz With Loud Noises?

This is an infallible sign of Catarrh, and if not checked may result in partial deafness. The simplest remedy is CATARRHOGONE—It is a soothing vapor a few times daily. No need to stop work. No spreading. Head noises, buzzing and ringing in the ears are soon corrected by CATARRHOGONE. Noisy nose-discharges are stopped. Sores, inflamed crusts are healed. Sickening mucous which drops back from nostrils, cures. No throat and catarrh if you use CATARRHOGONE. Two months' treatment \$1.00; small size, 50c. At all dealers.

### Boosting For Canada

Many Cities in Britain Have Held "Canada Week"

There has not been much said in Canadian newspapers about the city of Bristol's "Canada Week," and the event should have been taken more notice of than it was.

Bristol is a city of 400,000 people. It has just had a "Canada Week," which consisted of a campaign for the buying of goods made in Canada. Pages of newspaper advertising paid, posters and displays of Canadian merchandise, and other forms of publicity were given to our products, and the cumulative results have meant the selling of many thousands of dollars worth of goods, besides the value of introducing lines of Canadian goods to Bristol purchasers for the first time.

Glasgow, with a population of over a million, and several other big cities, have held "Canada Weeks," and Canada must have derived a large amount of permanent benefit from them.

Such gestures of good-will deserve the practical approval of Canadians. There is a great deal more boosting of Dominion products in Great Britain than there is of English products over here. The Empire Marketing Board has spent about \$1,000 on the promotion of the sale of Empire goods in the British Isles. We sell a vast quantity of goods to the Empire, and then spend most of our money in buying United States goods.

Canada will wait till the moon turns into cheese before a "Canada Week" is staged in one of the big cities over the border.

Miller's Worm Powder does not need the help of castor oil or any other purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble, by making the stomach and bowels unattractive to the parasites. And not only this, but the powder will be certain to exert most beneficial influence in the digestive organs.

### Has No Known Parallel

Two British Families Have Produced Outstanding Men For Generations

The death of the Earl of Balfour recalls the fact that for centuries two British families have produced big men for generation after generation—the Cecil and the Churchill.

There is no known parallel for this in any other land or in any other age.

The Pitts, father and son, were premiers of Great Britain but it ended there, and of practically all other men of note in the old land the descendants have not attained any other honor save that of carrying a big name.

If it be true that the mother transmits mentally, then the Cecil and Churchill men must have an uncanny habit of selecting unusual wives.

### Established a Record

Thirty-two years on a water wagon is a record of civic service which will take some beating, and when there is added to that a service of over 29 years, as driver of the town's fire truck during which he missed only one fire, and the record of John Toner of Port Hope, Ont., seems to be complete.

### Chicken Cannery

The construction of a \$25,000 chicken cannery to be operated in connection with the Big Egg Port and other poultry raising concerns of the Fraser Valley, is planned for New Westminster. It will be a private venture.

One of the most thrilling drives in the mountains of Western Canada is along the new motor road to the top of Mount Revelstoke, in Mount Revelstoke National Park, a reservation of 100 square miles. A reservation of 100 square miles. A reservation of 100 square miles.

The polar bear has hair on the soles of his feet, which helps it to avoid slipping on the ice.

Minard's Cakes Falling Hard.

### Millions Dedicated To Humanity's Service

Huge Sum Set Aside By Mayo Bros. For Medical Education and Research

The millions of dollars that Doctors William and Charles Mayo have made through their world-famous clinic at Rochester, Minn., will not go to their families when the two great surgeons die.

Instead this money—the "holy money," as the brothers call it, now totaling in the neighborhood of \$13,000,000—will be dedicated to humanity's service through the Mayo Foundation for Medical Education and Research, affiliated with the University of Minnesota.

Meanwhile the two brothers have put themselves on "salaries" which do not amount annually to nearly half of their incomes. All of their incomes above these salaries goes to the foundation, to train surgeons for the future.

Dr. William Mayo was asked on what basis he and his brother have made their charges. "That, too, was something my brother and I discussed long," he said. "The money began to pile up and in pile up so fast it frightened us. We had to meet that problem. The thought of reducing fees generally had to be dismissed. We could not pauperize our own profession. There are thousands of physicians and surgeons who need the income from what are becoming accepted as standard fees."

"But we could do something that we did. We scaled the fee in accordance with the patient's means. And we gave the same treatment to the man without a cent as we gave to the millionaire. A man's financial standing has nothing to do with the treatment he gets from us. But it has everything to do with what we charge him."

The Friend Of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever required for.

### Curious Twist Of History

Anyone with an eye for the curious twists of history must be interested in the fact that Primo De Rivera, ex-dictator of Spain, was kept alive for many years past by insulin, developed in the New World, which was discovered by a man financed by the Spanish Court, nearly four and a half centuries ago.

It is estimated that there are 200,000 drug addicts in the United States.

The star-fish has no nose, but the whole of its underside is endowed with the sense of smell.

Fireproof Wallboard

24x48

## News For Horse Lovers

## Statistics Show They Are Hard To Displace

That farmers all over the world realize the advantages of horses for agricultural work, is shown by the following figures just published by the National Horse Association:

In 1788 the only horses in Australia were one stallion, three mares and a colt. In 1800 they had increased to 220; in 1850 to 159,031, and now there are 2,350,361.

In Great Britain there are 1,204,188 horses engaged in agriculture.

Despite the enormous depletion of horses in France during the war, there are now 3,000,000 in that country.

Although millions of pounds have been spent in the United States trying to displace them, there are 20,000,000 horses and mules in the country.

Germany has 3,500,000 horses, excluding those attached to the Army.

## Irrigation Project A Success

Value Of Production In Lethbridge Area Greatly Increased Through Irrigation Project were very successful in 1929, according to the annual report tabled in the Alberta Legislature by Hon. W. V. Smith, Minister of Railways and Telephones. The value of production that year was \$2,477,000, or an increase of \$932,257 over the year before. The occupied part of the Project is growing each year and now represents about half of the whole.

(By Eva A. Tinney)

Robert Bridges, poet laureate of England, died in London, April 21. Mr. Bridges, who has been poet laureate since 1913, was 86 years old. His works were known all over the world.

Official announcement has been made for rendition of Welhaven, a British Islesman in Shanghai, back to China. The agreement was signed by Sir Miles Lampson, British minister, and C. T. Wang, Chinese foreign minister.

Coming to the end of their long road, the delegates of the great five naval powers affixed their signatures to an historic treaty limiting and reducing the navies of three of them and placing certain restrictions upon the sea forces of the other two.

If the luck of certain Port Huron, Ont., fishermen keeps up, businesses soon may be ordering goldfish from the fish shops. Fishing in Lake Erie, about a mile west of the harbor, the fishermen brought in a live goldfish, about eight inches in length, in their nets.

When Lord Byng returns to England, he will apparently resume his duties as chief commissioner of Metropolitan Police and head of Scotland Yard. He has been staying with a friend near Port Elizabeth, S.A., recuperating from his serious illness of last December.

## A Picturesque Ceremony

One of the most picturesque ceremonies held in Rome, Italy, this year, was on the feast of St. Agnes, when the blessing of the lambs was observed. White-voiled girls carried the garlanded animals from the fleece of which is woven the pallium worn by Roman archbishops through the streets in procession before the blessing.

Ninety per cent of the people now in Manchuria are Chinese.

## FAINT, DIZZY SPELLS

## Had To Sleep Propped Up In Bed

Mrs. Norman Bishop, Salisbury, N.B., writes: "I was troubled with faint and dizzy spells and when I would lie down I would suffer terribly with nauseating spells. I got bad. I had to sleep propped up in bed."

"My doctor said that I needed a good heart tonic."

"I was advised to take

MILBURN'S

HEART

NERVE PILLS

and I had not taken one box when I could lie down and sleep like a child."

Price, 50c. a box of all druggists and dealers, or mailed direct, receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a feeling of sour and acid in the stomach? May be they have heart trouble and tremble with fear, expecting any day to drop dead. This condition can be prevented, relieved, cured. Take Carter's Little Liver Pills after meals and neutralize the gastric acids and encourage digestion. The stomach, liver and bowels will be cleared of poison, pain and dangerous indigestion disappears and the system gets a tonic effect. Don't delay. Ask your druggist for a 25c box of Carter's Little Liver Pills.

## Annuities For Judges

## Legislation To Be Introduced At Present Session Of Federal Parliament

Legislation respecting annuities to judges of the Supreme Court of Canada and the Exchequer Court on reaching the age of 75 years is to be introduced at the present session of parliament.

A resolution placed on the order paper of the House of Commons by Hon. Ernest Lapointe, reads: "That it is expedient to amend the Judges' Act to provide that an annuity equal to his salary at the time he ceases or ceases to hold office may be granted to a judge of the Supreme Court of Canada or of the Exchequer Court of Canada who held office on March 31, 1927, and continued or continues in office until he attains or attains 75 years of age; and that an annuity equal to two-thirds of the salary annexed to the office which such judge holds at the time he so ceases to be a judge may be granted to a judge of the said courts, appointed after March 31, 1927, attaining 75 years of age after service of 10 years, or aggregate service of 10 years in that office and as judge of a provincial superior court."

## Recipes For This Week

(By Betty Barclay)

## PRINCESS SALAD

(Serves 6)

- 1 head lettuce.
- 1 can green asparagus tips.
- 2 fresh tomatoes.
- 2 large oranges.

Pimiento and mayonnaise.

Place one slice of tomato on each salad plate on which has been arranged a bed of lettuce. Pyramid 3 asparagus tips on tomato slice. Top off with mayonnaise and a strip of pimiento. Arrange 4 sections of orange around the tomato.

## ECONOMY MEAT PIE

Cut left-over meat and vegetables into uniform medium-sized pieces. Mix with an equal amount of medium cream sauce (1 cup milk, 2 tablespoons flour, 2 tablespoons butter). Season well with onion, salt, pepper, etc. (Use left-over gravy with cream sauce if possible). Cover with a thick pie crust, biscuit dough, or layer of left-over mashed potato mixed with milk (one slightly beaten egg can be added to potato if desired). Bake in a moderate oven until the crust is cooked, or until browned and heated through if potato is used.

## Banquet For Livestock Men

Old Times Will Be Entertained At Calgary Exhibition

One of the events of the 1930 Calgary Exhibition and Stampede will be the dinner to be given by the Canadian Pacific Railway on Tuesday, July 8th, to the men who were actively engaged in the livestock industry in the territory bounded by Moose Jaw on the east to Kamloops on the west, and from Deer River on the north to the international boundary, prior to December 31, 1930. The guests must have been at least 20 years of age at that time and engaged in the ranching business either as owners, managers, foremen, cowpunchers, cooks or horse wranglers.

## Filleting Of Fish

Filleting of fish in the Peter Pond district, a couple of hundred miles north of the Battleford district, in Saskatchewan, was undertaken this winter for the first time, when 40,000 pounds of whitefish and 5,000 pounds of jackfish were filleted.

In China there is one qualified doctor to every 740,000 inhabitants. In Great Britain the proportion is one to 1,400.

Grand Falls, in Labrador, is said to be the highest waterfall in the world. It is 2,000 feet high.

About one-half of every bone in a human body is phosphate.

## SUNDAY SCHOOL LESSON MAY 4

GIVING UP ALL FOR THE KINGDOM  
Golden Text: "Lay up for yourselves treasures in heaven."—Matthew 6:20.  
Lesson: Matthew 19:1-29.  
Devotional Reading: Proverbs 8:1-11.

**Explanations and Comments**  
In regard to Giving Up All, for the Kingdom, verses 19:27-29. And he said one, a ruler of the synagogue, as Luke tells us (18:18), came to Jesus with the question, "Teacher, what good thing shall I do, that I may have eternal life?" His question was a natural one, for the religious teachers of his time, and of ours, were men of his kind, and of his practice. His coming must have been as welcome to Jesus as the visit of the mothers with their children; a man not belonging to the class of self-satisfied religionists of whom he had had ample experience, with moral ingenueness, an open mind, and a good, hard heart; a natural, probably with the teaching and practice of the rabbis and scribes, coming to the still-ignorant Teacher in hope of hearing from Him something satisfying.—A. S. Bruce.

"Why asketh thou Me concerning that which is good? One that is good," and to obey His will is to do your right course of action, was Jesus' answer. "But if thou wouldst rather keep the commandments," Jesus further explained "Which?" very naturally questioned the young man, for before the commandments there were many other laws given by Moses and a multitude given by the scribes. In answer, Jesus said, "Thou shalt love the Lord thy God with all thy heart, seventh, eighth, ninth and fifth commandments of the Decalogue, all of them bearing upon one's treatment of others, and then added from Leviticus, 'Thou shalt love thy neighbor as thyself.' All these things have I observed; what lack I yet?" The young man returned in surprise. Dean Farrar voices the young man's thought: "Surely the Great Teacher to whom I have come seeking for some great thing to do, or secret thing to know, cannot possibly give His answer that I am to keep the old, simple, elementary Ten Commandments, which I have known ever since I loved Him as my mother's knee! He must mean something far beyond that." Dean Farrar comments: "It was exactly like the child in the poem who, having been talked to continually about the glory and majesty of the sea, and being led to the seaside and 'Te that the mighty ocean? Is that all?'"

"If thou wouldst be perfect, go, sell all that thou hast, and give to the poor," answered Jesus. This was the one thing that Jesus said to the man to do, for between him and the love of his neighbor, stood the love of possessions. "For he was rich."

## Powerful New Gun

A new gun capable of firing 50 calibre bullets nine miles at a rate of 800 a minute has been accepted by the U.S. army department and will be manufactured as one of the newest and most deadly offensive modern arms. The gun is the invention of Robert F. Hudson.

## Canada's Honey Production

The annual production of honey in Canada is about 30,000,000 pounds, the principal commercial users being confectioners, bakers and bottlers.

## Establishing Training Centres For Criminals

## English Prison Commission Plans To Train Men In Suitable Work

As part of the scheme to reclaim young criminals, the English prison commission will establish a series of training centres, the first of which will be at Nottingham, where men of a special class between the ages of 21 and 26 will be sent. The aim will be to train each man in the work for which he is best suited. The men will work eight hours a day. Speaking of the scheme, an official of the prison commission said in an interview: "Probably we shall attach some of the men to the building parties and engineers. There will be physical training, and in the evenings educational pursuits."

Further the official said: "Criminals will not be sent to the training centre direct by order of the courts, but will graduate from the prison to the training centre."

## Sowing Sweet Clover

The Co-operative Creamery of Cardston, Alberta, announces the receipt of orders and sales of sweet clover seed in Cardston, surrounding farmers totalling over 10,000 pounds. This is in response to its campaign among the farmers asking them to sow sweet clover seed this spring in the interests of an improving dairy and livestock business.

## Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form for less exacting uses. At grocers, druggists, stationers.

Appleford Paper Products

## Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

## WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand the sharpest temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

USE WINDOLITE IN BROODER HOUSES LAYING PENS DAIRY BARN SUNROOMS ETC.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Distributors: JOHN A. CHANTLER & CO., LTD.

## CHAMPION CHATTER

VOL. 3

Thursday, MAY 1, 1930

No. 10

Published in the interests of the People of Champion and vicinity. GEO. L. DUPUE, Editor.

## To Read!

Butler: Mr. Jones, your wife just clapped with the chauffeur. Jones: I don't like my luck! Just when I wanted to use the car to go golfing.

Today there are many thousands of farmers who are using Mc-Dee cream separators and who will tell you to do the same.

Ask any Mc-Dee owner about his separator and you'll get the best kind of proof that the Mc-Dee skins clean, turn easy, and is easy to wash and clean.

Stop in and look over the Mc-Dee Cream Separators on our floor.

The best fortune teller is the bank teller.

Norman Patterson reports drilling, drilling and harrowing 35 acres.

"Good Equipment Makes a Good Farmer Better."

In one operation on 22 gals of coal oil with his new Mc-Dee tractor. Wm. Penn motor oils, "Still the Best!"

She: Huh! She's only a confectioner's daughter. He: That may be, but she certainly knows her sugar.

The new, heat-treated, crimped steel disks used on all our Mc-Dee Tractor Disk Harrows are from 20 to 100 per cent stronger than ordinary disks.

We have a real buy in a used Chevrolet Coupe if you need a car don't miss looking this one over.

Mrs. W. J. Sanderson has been added to the list of satisfied Mc-Dee cream separator owners. Today take long to sell Mrs. Sanderson either she just wanted to know if it was as good as the Mc-Dee tractor.

Reggie: So you and Catherine don't speak any more.

Frank: Nope. We couldn't agree who loved the other the most!

Hello Bill! Want to see you Tuesday.

Mc-Dee spring-tooth harrows are like other Mc-Dee tillage tools. They are built for many years of faithful, efficient work. Ask to see your favorite size and style.

"The baseball game between the boys of the Cal Ribs and Market Ridge neighborhoods came to a sudden end yesterday, in the snow lot, when Fred Watts slid into what he thought was second base."

## Local and General

Before doing your spring decorating or painting see Knox—Savoy hotel.

M. E. Clever, of Calgary, was a Champion visitor this week.

W. W. Jopling and C. W. Johnson spent the week end in town.

See Richard Dix in Redskin—Sat. night.

Found—License plate No. 3872. Apply at the Chronicle office.

Book now for the first arrival of Cabbage, Cauliflower, Tomatoes and annual flowers—Campbell's.

Born—On Monday, April 28th, at Mrs. Milliken's maternity home, to Mr. and Mrs. C. Milliken, a son.

The Misses McNaughton left for their schools on Monday after spending the Easter holidays at home.

The Champion Petroleum Co's tanks are being installed this week and it is expected they will be in use in a few days.

J. D. Henderson now has a garage behind the drug store, fully up-to-date. S. O. Miffin was the builder.

All the natural beauty of the scenic Southwest filmed in natural color for Redskin! A technical marvel.—Sat. night.

Miss Zella Goodnight left April 30th for Yakima, Wash., where she will enter the St. Elizabeth's training school for nurses.

Mr. and Mrs. Irvine Napp of Seattle motored to Champion and are the guests of Mr. and Mrs. S. C. Milliken, Mrs. Napp's parents.

Mrs. Geo. Money and Jimmy Brown were visitors from Calgary to their father, James Brown, last week, returning to Calgary on Saturday night.

A new romantic drama of the Indian. A story as thrillingly tender as has ever been told. Recalling the immortal The Vanishing American.—Thurs. Redskin.

A letter from B. M. Roberts would indicate that he is enjoying his new position with the Hudson Bay Oil Co. at Eyremore. He is particularly impressed with the quantity and quality of the catables available and anyone who knows Butler intimately will realize that under such conditions he will be unservicably happy.

The school grounds are being levelled with L. W. Church in charge.

Campbell's have everything you want in shrubs, trees, rose bushes, perennials and annuals.

K. R. McLean, R.O. of McLean & Anderson, Right Specialist 208-8th Ave. West, Calgary will make his monthly visit to Champion Friday, May 2nd, at the Drug Store.

Jimmy Ashmore returned to Champion on Monday night from Fernie, B.C., where he was operated upon for appendicitis. He has made a rapid and satisfactory recovery and is feeling and looking well.

The parties who borrowed the battery, battery cable, generator, and headlight, built from I. Granlin's Ford Coupe, standing in the yard behind his house, are requested to return same at once and avoid prosecution.

The editor has known for some time that Archie Ruggles was a great fisherman with records from Oskiki, Minn., Lake Newell and Long Lake. Now he has turned his attention to Lake McGregor and landed a fifteen pound pike.

J. M. Moffatt and Fred Clever are arranging to make a test for water on the latter's premises. While water is the only thing mentioned the belief is growing that the strata will be examined very closely for indications of oil. Milt having made a study of geological conditions at the Hudson Bay well and in consequence being prepared to miss nothing in this line produced in water test.

**Lutheran Church Services**  
The Lutheran Church still preaches the Gospel of Christ and His crucifixion. Lutheran services will be held, the Lord willing, at the Lutheran parsonage on Sunday, May 4th, at 11:00 a.m. Sunday School after services.

You are heartily invited to attend and to bring your friends.

REV. F. A. DÜSENING, Pastor.

## Hogs Wanted

Will buy your Hogs any time you want to sell.

Shipping day Thursday. Graded same as Calgary.

**HARRY SMITH**  
Phone 1215 Champion.

A rift in the clouds on Monday permitted a very good view of the eclipse of the sun, and smoked glasses and other paraphernalia were in demand for a few minutes. This eclipse will not occur again for 54 years, so it was decidedly fortunate observation was possible.

Another petition has gone to Edmonton asking that a process issuer be appointed at Champion. If this is done persons having to seek remedies in the courts will not have to wait the mail to send to Lethbridge and as has often happened lose their opportunity to collect just debts.

Mr. and Mrs. O. E. Hargraves will take over the dining room of the Hotel Savoy about May 7th. The Farmers' Restaurant, which they have conducted for some years and is quite a landmark will be closed. Mrs. Hargraves will continue to take boarders by the week or month at the usual rates.

Two yearling heifers purchased by H. E. Gill from McDougall tipped the scales at 1430 lbs. and the dressed beef weighed 845 lbs. Mr. Gill considers these the finest yearlings that ever passed through his hands here and week end customers of the Meat Market will benefit accordingly.

A stock shower was held at the home of Mrs. R. Ruggles on Friday, April 25th. Mrs. J. Steeves being the guest of honor. One very interesting gift was a hope chest made by Grandma Gray and A. J. Brooks, which contained many splendid gifts. A very pleasant afternoon was spent. Mrs. Royal Ruggles serving delicious refreshments.

Campbell's have the finest seed spade, Early Green, Aish Cobblers, Netted Jems. Book now and we will reserve some for you.

Ladies' Aid  
Tea and Supper

The Ladies' Aid is celebrating the anniversary of the organization on Saturday, May 7th, by serving afternoon tea from 3:00 to 5:00 o'clock and supper from 5:00 to 8:00 o'clock, the charges being 25c and 35c respectively. The church will be used for the occasion and it is anticipated there will be a big turnout.

Pick  
your tires  
from this  
String of  
Leaders

WE don't stock a lot of different makes of tires. We couldn't offer such low prices if we did. And we couldn't offer all sizes either. We feature Goodyears because we know they give you most for your dollars. And Goodyears alone offer the widest possible selection—in "every price class."

Don't let the Cheap  
Paint Joker  
put it over on you

He'll offer you paint for a little less. He'll tell you it's just as good. He'll point out the saving (he says) you'll make. But you won't. Because "cheap" paint won't go as far as Quality S.W.P. It doesn't give you the coverage. It cracks. It peels. It doesn't last and colors fade. It isn't cheap at all—it's the costliest of all. So don't let him put it over on you. S.W.P. costs a little more by the gallon in the can, but much less on the job.
